Professional Summary

Recent B.Tech graduate in Computer Science and Engineering with a specialization in IoT, Cybersecurity, and Blockchain. Passionate about technology and eager to leverage my technical skills while gaining practical industry experience and contributing to organizational growth.

Education

B.Tech in Computer Science and Engineering (IoT, Cyber Security and Blockchain)

Providence College of Engineering and School of Business, Chengannur
APJ Abdul Kalam Technological University
CGPA: 7.93 (First Class)

2022–2026

Higher Secondary Education (Bio-Maths)

St. John's School, Thumpamon (CBSE)
Percentage: 80.2% (Distinction)

2021

Secondary Education

St. John's School, Thumpamon (CBSE)
Percentage: 83.4% (Distinction)

2019

Technical Skills

- Programming Languages: Python, Java, C
- Database: MySQL
- Operating Systems: Windows
- Areas of Interest: Computer Science, AI, IoT, Cyber Security, Blockchain

Projects

AI Cricket Coach Using YOLOv8

- Developed an AI-powered Cricket Coach using YOLOv8 for real-time cricket shot detection and classification.
- Trained and optimized models on a dataset of 8,000+ annotated cricket batting images.
- Integrated XGBoost Regression for performance scoring and batting technique evaluation.
- Built an Android application with Flask backend to deliver instant shot analysis and voice-based feedback.

IoT Based Wild Animal Intrusion Detection Using Raspberry Pi 5

- Developed an IoT-based wildlife intrusion detection system using Raspberry Pi 5, ESP32, and TensorFlow Lite.
- Built a machine learning model for real-time detection of wild animals from live video streams.
- Implemented automated SMS alerts and deterrence mechanisms using lights and buzzers.
- Created an Android application for remote monitoring and device control.

Internships

Flutter Development Internship

Jul 2024

- Developed Android applications using Flutter and Android Studio.

Cyber Forensics Internship

Jan 2024

- Gained practical exposure to Disk, Mobile, and SIM Forensics.

Certifications

- Cloud Computing (NPTEL)
- Introduction to Industry 4.0 and Industrial Internet of Things (NPTEL)
- Google Cloud Career Practitioners Learning Path

july-oct 2024

jan-apr 2025

2022

Workshops

- A workshop on IoT and Embedded System Integration by IIT Palakkad Technology IHub Foundation
- A workshop on Latex for Beginners by providence FOSS CELL
- Completion of Cloud Engineer Learning Path Track in Google Cloud Career Practitioners
- A workshop on Ethical Hacking
- Advanced workshop on Python

Languages

- Malayalam (Native)
- English (Professional Proficiency)
- Hindi (Intermediate)
